Jonathan D. Miller  
Advantage Telecom Solutions

Dear Jonathan,

We have been working with you since you started and will continue to always call you first for all our telephone equipment and phone service needs.

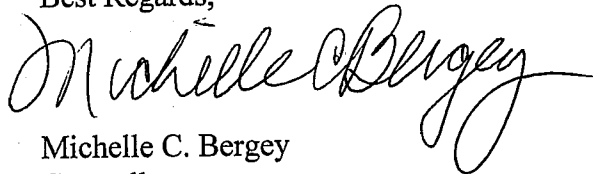

When we first started with you, you said you would take great care of us and you have most certainly done that for all these years. Our most recent phone switch to VoIP was an ongoing challenge but you went to the wall for us and came through as always. All that and at no cost to us!!!! Amazing!!

Please consider us one of your extremely satisfied customers. That includes not only myself, the Controller, but our IT Manager who also is grateful for all your help.

If ever you need someone to actually talk to a potential client, just have them call me directly and I will be glad to give a recommendation.

Keep up the good work!

Best Regards,

Michelle C. Bergey  
Controller
